To Whom It May Concern:

My name is Rich Hamilton, I am the head varsity softball coach at Red Mountain High School and have been coaching varsity athletes for the past 35 years. I have also coached club baseball for the past 10 years. I coached Easton Cline for four years and have watched him grow through his high school years. Easton's dedication to the game and desire to be a good player allows him to work hard and improve each year.

Easton's glove work is outstanding with good quick feet getting him into position to be a good fielder. I have seen his arm strength improve as he has gotten older with extreme accuracy. He has a willingness to play multiple positions with middle infield as his primary area. As Easton has grown, he has become a good hitter, knowing the strike zone and how important it is to be on base. Easton works tirelessly at his skills, always striving to improve and become the best baseball player he can be.

Easton is a strong leader. He is constantly leading by example both on the field and in the classroom. His dedication to being the best he can be is proven with his high GPA and commitment to taking the most challenging classes he can. Easton's tireless effort on the field is shown by being the first one to practice and the last one to leave. He is always the first in line and is committed to giving his best effort throughout an entire practice session.

Easton would be a strong asset to your program and university because of his kindness and willingness to be a good teammate. He goes out of his way to help others whenever he sees a need. He also has a strong desire to learn and improve wherever possible.

It is for these reasons, I recommend Easton Cline to your program. If you have any questions, please do not hesitate to contact me.

Sincerely,

Rich Hamilton
